(Dec) 996

Makernote @ 996

Shot Info Tag ID:0x4

Shot Info address??
(Hex) 0x654
(Dec) 1620

Firmware Tag ID: 0x7
Adress: 0x6B8 = 1720

CanonCameraInfo Tag
Address: 0x6F0 = 1776

Shot Info @ 1620

Where are Exiftool Shot info Tag 1 and 2?
(Auto Iso and Base Iso)
One of them is 320 (0x4001)
The other one must be 1000 since my ISO was
3200 on that shot (we divide by 100) according
to Exiftool doc.

Camera Temperature value from Shot Info block,
at index (12 = 0x000c) x 2 = (dec) 24

CameraTemperature !!!
(dec) 155

Assumed conversion:
(155 - 128) = 27

Camera Temperature value from CanonCameraInfo block,
at index 27
